Subject: 2017-3-30 - WAFB - thank you - Agencies letter for ST012 EBR phased implementation- path forward - epa and techlaw

Carolyn, Eva, Dan, and the whole expert team - Thanks for your work on the ST012 EBR path forward phased implementation. I appreciate the effort expended parsing bioremediation details from literature searches and the conceptual ideas grown from the email back and forth. Your knowledge base is much deeper than mine on the anaerobic bioremediation nuances. While I have read all the back and forth, I figure my best course of action to this point is to let the experts move the technical phase implementation document forward (and to not contribute to the email flood). I have not been able to offer anything constructive since y'all have been at least 3 steps ahead of where I would go.

Thank you for all the effort.

Wayne Miller
